

Model R-2000 Oiler

- Ideal for high pressure oiling applications (example: In-Service Rotary Meter)
- Model 500 (1/8") Probe allows oiling into Pete's Plugs
- Rugged case made of molded copolymer, rustproof, spark proof and unaffected by oil.

The Model R-2000 Oiler is a Hydraulic hand pump with pressure capacities from 0-2000 PSI. Internal parts are heavy duty, made from brass, aluminum, stainless steel, and Buna N. The transparent reservoir allows for quick check of fluid level. The bleed-off valve is capable of a slow bleed of pressure and fluid back to the reservoir. A built-in vernier fine tuning piston enables a precise control of pressure down to 100 PSI. *Optional:* Pressure Gauge and Model 510 (1/16") Probe
